AVERAGE WEEKLY WAGE (AWW) LSA-R.S. 23:1021(10)

Full-Time Employee: (A)Hired for 40 hour and worked 40 or more. Average the hours in the 4 full weeks prior to the accident and multiply hours by the hourly rate. If average is less than 40, employee given presumption of 40 hours. (B)Hired for 40 hours but worked less "at his/her own discretion". Calculation is the average of the earnings in the 4 full weeks prior to the accident.

Overtime is calculated by averaging all hours in the 4 full weeks. Multiply the straight-time rate times 40 hours and multiply the overtime rate times the hours of overtime

Part-Time Employee: Employer must have records showing that the employee is considered part time. Employee must knowingly accept employment for less than 40 hours per week.

If the claimant has no job other than the part-time job the calculation is an average of the hours in the 4 full weeks prior to the accident and multiply the hours times the hourly wage.

If the employee has another job in addition to the part-time job than the calculation is an average of hours from all employment. If the average is more than 40, only use 40 hours. Multiply these hours times the wage rate where the accident occurred.

Annual Salary Employee: calculate by dividing the annual wage by 52.

Monthly Employee: Multiply monthly wage by 12 and divide 52.

Unit/Commission/Piece meal: Designed originally for the timber industry. Determine the gross earnings in the 26 weeks prior to the accident. Divide the gross earnings by the number of days actually worked in the same period and multiply the resulting day rate by the average number of days worked per week.

TTD, PTD and Death Benefits are due 14 days after employer knows of injury or death.

SEB's are due on the 14th day after the employer has knowledge of compensable wage loss.

Must have knowledge prior to the subsequent job accident.

2. Merger with Subsequent job injury: Merger can occur when the subsequent injury would not have occurred but for the preexisting condition or the disability resulting from the subsequent injury has merged permanent partial condition to create a greater disability. Claim for SIF relief must be filed within 52 weeks of the first payment of any benefits in the claim.

DEATH BENEFITS LSA-R.S. 23:1231 et. seq.

If no other legal dependents, but surviving children over the age of majority then the sum of \$75,000 is divided equally among the surviving children. If no dependents and no surviving children over the age of majority then the surviving parents are to be paid \$75,000 each.

AFFIRMATIVE DEFENSES LSA-R.S. 23:1081

Intoxication: Burden of proving intoxication remains with the employer/insurer, but the following presumptions apply to assist in proving intoxication:

Blood alcohol level at the time of the accident of .05 or less by weight, presumed not intoxicated.

Blood alcohol level at the time of the accident in excess of .05 but less than .08 by weight, then no presumption, but may be considered with other competent evidence.

Blood alcohol level of .08 or greater by weight, it is presumed that the employee was intoxicated. Other competent evidence of intoxication can also be introduced to establish intoxication.

Employers also have the right to administer drug and alcohol testing immediately after the job accident. If an employee refuses to submit to the test immediately after a job accident, it is presumed that the employee is intoxicated at the time of the accident. The employer can establish the use of illegal drugs by introducing the results of an employer-administered urine test pursuant to a written and promulgated drug policy.

Once the employer has met the burden of proving intoxication, it is presumed that the accident was caused by the intoxication. The burden of proof then shifts to the employee to prove that the intoxication was not a contributing cause of the accident.

Initial Aggressor: The statute denies compensation for an injury caused "to the initial physical aggressor in an unprovoked physical altercation, unless excessive force was used in retaliation against the initial aggressor."

The initial aggressor can recover benefits if provoked by verbal attacks. "fighting words"

Willful Intent to Injure: Defense to work injuries that can be proven to be self-inflicted.

CHOICE OF PHYSICIAN

Claimant is allowed his choice of physician in each field of speciality provided the need for the specialist is reasonable and medically necessary.

If the employer/insurer has directed a claimant to a physician that will not be considered the employee's choice. The employee can select that particular physician as his own if he fills out the LDOL Choice of Physician form.

If the claimant selected the physician and was not directed to the physician by the employer/insurer that is considered the claimant's choice of physician. Despite this it is recommended the you still have the claimant sign a choice of physician form so that the selection is clear.

The LDOL Choice of Physician Form can be found at www.laworks.net under the WC forms section.

SETTLEMENTS LSA-R.S. 23:1271

Parties can settle indemnity and medical benefits or the parties can elect to just settle one and leave the other portion open.

Settlements must be approved by the insured.

Non-represented party must appear before the OWC judge to have the settlement approved in open court.

Two types: Lump sum and compromise settlements. Majority of settlements in WC are compromise settlements. Lump sum settlements can not be discounted at a rate greater than 8% per annum or the employer could be liable for a penalty of 1 and 1/2 times the correct amount.

SUBROGATION LSA-R.S. 23:1101 et. seq.

Employers and insurers may seek reimbursement from certain third persons.

Third Person: is a person who (1) is not immune from tort liability and (2) has a legal liability to pay damages for the employee's compensable injury, sickness or disease.

"Third Person" includes any party that causes injury to an employee at the time of the employee's accident or at any time thereafter provided that the employer or insurer is obligated to pay workers' compensation benefits because the injury caused by the third person aggravated the employee's job injury.

Employer's lien takes precedent over the employee's recovery in the third party litigation.

Limitations to Employer/Insurer's Right to reimbursement: Attorney's fees and cost- employer's lien is reduced by 1/3(Moody Fees) for recovery by employee's attorney. Employer's lien can also be reduced based on the employer's pro rata share of the costs.
